

*Dr Raj graduated from Leeds University- Undergraduate medical degree. Separate first class honors degree in Anatomy. He then started working as a junior doctor in the NHS and completed his surgical training throughout West Yorkshire. Dr Raj then went onto complete his core surgical training programme and also post graduate examinations and became a full member of the Royal College of Surgeons of Edinburgh. He later left the NHS and became a Aesthetic Doctor. Where he has now completed full level 7 accreditation in Aesthetic Medicine. Following on from this he became a trainer for one of the biggest international derma filler companies- Teoxane.*

*Dr Raj also has extensive knowledge and experience in treating Melasma and Chloasma and other pigmentation disorders. He uses a range of different techniques and modalities. Dr Raj is also a member of the National editorial Board for Aesthetic medicine magazine.*

*Most recently Dr Raj has opened his Clinic based in Leeds, UK. He wanted his clinic to rival those of London in terms of prestige, but with the space, light, luxury and artistry that are perhaps harder to achieve in the capital thanks to the astronomical rents of Harley Street and the surrounding areas. Having himself visited other clinics for training in the past, Dr Thethi says he was always conscious of the spaces in which practical treatment demonstrations were carried out. So, suddenly faced with a much bigger space than he ever anticipated, he decided to incorporate a training facility also and show his passion for training.*
